Young Writers and Photography will integrate the exploration of photography with the craft of writing to expand the way young people see and experience the world around them.

Exposure to mentor photographs and texts will support students as they develop photography skills and are inspired to write about the images they create.

Photography and writing experiences will include:

- play with digital tools
- photo composition
- nature exploration
- exposure to elements of photography
- storytelling through words and images
- exploring writing styles and strategies

This camp is designed for beginning photographers but we welcome students at all levels of experience to participate. Campers are encouraged to bring their own digital devices/cameras.
